

FIRST QUALITY IS PROUD TO SUPPORT SPLASHES OF HOPE

GREAT NECK, NY, August 25, 2017 / -- First Quality Consumer Products, LLC and its affiliated companies (collectively “First Quality”) partnered last month with Splashes of Hope, a New York based nonprofit organization. Founded in 1996, Splashes of Hope is dedicated to creating art that helps transform medical settings to enrich the environment and facilitate healing. Custom artwork is designed and individualized for the unique needs of the patients, their family, and the staff caring for them.

Through Splashes of Hope, First Quality committed to providing hand painted murals and ceiling tiles to three pediatric hospitals.

The First Quality team worked side-by-side with one another and the Splashes of Hope Volunteers to bring the three murals and the two ceiling tiles to life. For the FQ team, this was much more than a team building event –the experience was very personal because the hospitals selected: Janet Weis Children’s Hospital in Danville, PA, St. Christopher’s Hospital for Children in Philadelphia, PA and Brookdale Medical Center in Brooklyn, NY are facilities local to where First Quality has locations, and more than one team member had a story about a family member who had been a pediatric patient at each of the hospitals.

Team members also worked together on fifty custom designed “Friend on the Mend” gift sets. The sets include a coloring book, box of crayons, and an animal puppet. The team decorated the outside of each bag with unique designs, quotes and words of encouragement for the young patients who will receive the gift sets.
