"Ursula was a volunteer at a hospital for nearly 45 years. Michael was an avid boater and sailed past the colorful mural scene more times than he could count, (though it is doubtful that he would have passed moose in kayaks, rabbits in speedboats, and turtles and giraffes in sailboats, to say nothing of hippos on a beach!) But, as an artist himself, Michael surely would have appreciated the artistic license, as much as the children will enjoy the artwork in such a fanciful and yet familiar local scene."

## About Us

Splashes of Hope is a nonprofit organization founded in 1996 with the mission to transform facilities "From Clinical to Colorful."

Our team of artists have created custom designed hand-painted murals that enhance the environments of hospitals, healthcare centers and social service facilities throughout the world.

The painted scenes are designed to support the healing process by providing a soothing and uplifting visual focus for patients, families and the people who care for them.
